25-30% of the cost of partners

(like and others).

4

Any other activities to be added in the future (New Game)

DISTRIBUTION OF PROFITS

Each month, the profits generated by these activities will be managed as follows:

BURN TOKEN

The 5% will be used to 'burn' the tokens.

Example: If the month's profits are \$50,000 USDT, 5%, or \$2,500 USDT, will be used to buy and then dispose of LK16 tokens. This process reduces the amount of tokens in circulation and, as a result, can increase the value of the remaining tokens.

REINVESTMENT IN THE FUND

- 30% of the profits will be reinvested into the fund to foster the growth of the Lucky VIP Program

- (For the first 24 months, 15% to the 100 Special Founders).

Example: If 50,000 USDT is generated, 15%, 7,500 USDT, is divided among the special founders.

DISTRIBUTION TO PARTICIPANTS

The remaining 50% will be divided into two parts:

A part will go to the Lucky16 platform to cover running and marketing costs.

The other part will be distributed among VIP PROGRAM participants, according to the number and level of VIP coupons they possess.

If there are 30 Level 1 VIP coupons, 20 Level 2 VIP coupons and 15 Level 3 VIP coupons, the profits will be divided as follows:

60% split between all Cedolini (Level 1, 2 and 3).

25% split between VIP Cedolini Level 2 and 3.

15% split between VIP Cedolini Level 3.

Example: If 50% equals 25,000 usdt, 12,500 usdt will go to Lucky16 and the other 12,500 will be distributed like this:

$12,500 * 60\% = \text{EUR } 7,500$ divided among all VIP Cedolini (Level 1, 2 and 3).

$12,500 * 25\% = \text{EUR } 3,125$ divided among Level 2 and Level 3 VIP Cedolini.

$12,500 * 15\% = \text{EUR } 1,875$ divided among Level 3 VIP Cedolini.
